

City of Fayetteville Building Safety Division

POLICY & PROCEDURE

Trash Containment

Trash shall be contained on the constructions site and disposed of properly.

At least one trash container shall be installed on the building site before construction begins or before a saw service electrical meter will be approved. If the request is made before the container is provided, the meter will be denied and a \$20 re-inspection fee will be due.

The trash container shall:

- Be placed on the property.
- Be constructed of materials that will not allow the passage of a 2” sphere
(2” X 2” opening).
- Adequately anchored and supported to stay upright and in place.
- Have a cover to keep trash in the container.
- Have of volume of at least 50 cu. ft.

Whenever trash is discovered not to be contained, a violation will be written and no further inspections will be made until the site is cleaned up and all fees paid. Each day the violation continues shall comprise a separate fee. Occupancy permits and utility services will not be approved until all fees have been paid.

Reason: Litter is illegal in the City of Fayetteville. This is to enforce City Ordinances through the inspection process.
