### 164.12 Nonconforming Uses And Structures

- (A) *Intent.*
- (1) Within the districts established by this chapter or amendments that may later be adopted, if there exist lots, structure, uses of land and structures, and characteristics of use which are lawful before this chapter was passed or amended, but which would be prohibited, regulated, or restricted under the terms of this chapter or future amendment, it is the intent of this chapter to permit these nonconformities to continue until they are removed, but not to encourage their survival. It is further the intent of this chapter that nonconformities shall not be enlarged upon,

Fayetteville Code of Ordinances

expanded, or extended, nor be used as grounds for adding other structures or uses prohibited elsewhere in the same district.

- (2) It is not the intent of this section to prohibit the improvement of nonconforming residences by adding bath facilities or connecting to utilities as long as the bulk and area requirements of the RMF-40 District are met.
- (3) Nonconforming uses are declared by this chapter to be incompatible with permitted uses in the district involved.
- (4) A nonconforming use of a structure, a nonconforming use of land, or a nonconforming use of a structure and land in combination shall not be extended or enlarged after passage of this chapter by the addition of other uses of a nature which would be prohibited generally in the district involved.

(B) *Nonconforming lots of record.*

- (1) *Single-family dwellings.* In any district in which single-family dwellings are permitted, a single-family dwelling and customary accessory building may be erected on any single lot of record at the effective date of adoption or amendment of this chapter, notwithstanding limitations imposed by other provisions of this chapter. Such lot must be in separate ownership and not of continuous frontage with other lots in the same ownership. This provision shall apply even though such lot fails to meet the requirements for area or width, or both, that are generally applicable in the district, provided that setback dimensions and requirements other than these applying to area or width, or both, of the lot shall conform to the regulations for the district in which such lot is located. In a previously developed subdivision, platted prior to June 29, 1970, and with the approval of the Subdivision Committee, a new single-family dwelling, or an addition, or repair to an existing single-family dwelling may be constructed in all residential zones in keeping with the existing standard in the neighborhood so long as the interior side setback is no less than five (5) feet. Variance of setback requirements shall be obtained only through action of the Board of Adjustment.
- (2) *Combined lots.* If two or more, or combination of lots and portion of lots with continuous frontage in single ownership are of record at the time of passage or

amendment of this chapter, and if all parts of the lots do not meet the requirements established for lot width and area, the lands involved shall be considered to be an undivided parcel for the purposes of this chapter, and no portion of said parcel shall be used or sold in a manner which diminishes compliance with lot width and area requirements stated in this chapter. The prohibition prescribed hereby shall not apply to a nonconforming lot on which a principal structure existed on the effective date of adoption of this chapter and which adjoins a nonconforming lot on which a principal structure existed on the effective date of the adoption of this chapter.

(C) *Nonconforming uses of land (or land with minor structures only).* Where at the time of passage of this chapter lawful use of land exists which would not be permitted by the regulations imposed by this chapter, and where such use involves no individual structure with a replacement cost exceeding \$1,000.00, the use may be continued so long as it remains otherwise lawful, provided:

- (1) *Enlargement.* No such nonconforming use shall be enlarged or increased, nor extended to occupy a greater area of land than was occupied at the effective date of adoption or amendment of this chapter.
- (2) *Moving of use.* No such nonconforming use shall be moved in whole or in part to any portion of the lot or parcel other than that occupied by such use at the effective date of adoption or amendment of this chapter.
- (3) *Cease of use.* If any such nonconforming use of land ceases for any reason for a period of more than 120 days, any subsequent use of such land shall conform to the regulations in which such land is located; and
- (4) *Additional structures.* No additional structure not conforming to the requirements of this chapter shall be erected in connection with such nonconforming use of land.

(D) *Nonconforming structures.* Where a lawful structure exists at the effective date of adoption or amendment of this chapter that could not be built under the terms of this chapter by reason of restriction on areas, lot coverage, height, setbacks, its location in the lot, or other requirements concerning the structure, such structure may be continued so long as it remains otherwise lawful, subject to the following provisions:

TITLE XV UNIFIED DEVELOPMENT CODE

- (1) *Alterations.* No such nonconforming structure may be enlarged or altered in a way which increases its nonconformity but any structure or portion thereof may be altered to decrease its nonconformity, provided, the following structures may be enlarged or altered as hereinafter provided:
- (a) Nonconforming residential structures may be enlarged or altered by increasing the height of said structures.
  - (b) Carports in residential zones may be extended into the required setback setbacks if:
    - (i) The carport is setback at least 10 feet from the street right-of-way;
    - (ii) The carport is setback at least five feet from any interior side property line;
    - (iii) The carport is setback at least 10 feet from the rear property line;
    - (iv) The area below the roof is open on the sides; and
    - (v) The carport does not materially obstruct vision.
  - (c) In residential zones, detachable awnings which are not structurally a part of the building may be erected in any required front setback or rear setback if the awning does not project more than six feet. Detachable awnings which are not structurally a part of the building and which project no more than four feet may be erected in any required interior side setback.
  - (d) In residential zones, porch roofs and open porches may extend into required setbacks by one foot on each side of the entry door to maximum depth of six feet in required front setbacks and rear setbacks and to a maximum depth of four feet in required interior side setbacks.
- (2) *Destruction.* Should such nonconforming structure or nonconforming portion of structure be destroyed by any means to an extent of more than 50% of its replacement cost at time of destruction, it shall not be reconstructed except in conformity with the provisions of this chapter.
- (3) *Moving.* Should such structure be moved for any reason for any distance whatever, it shall thereafter conform to the regulations for the district in which it is located after it is moved.
- (E) *Nonconforming uses of structures or of structures and premises in combination.* If lawful use involving individual structures with a replacement cost of \$1,000.00 or more, or of structure and premises in combination, exists at the effective date of adoption or amendment of this chapter, that would not be allowed in the district under the terms of this chapter the lawful use may be continued as long as it remains otherwise lawful, subject to the following provisions.
- (1) *Enlargement of structure.* No existing structure devoted to a use not permitted by this chapter in the district in which it is located shall be enlarged, extended, constructed, reconstructed, moved or structurally altered except in changing the use of the structure to a use permitted in the district in which it is located or as required by other ordinances.
  - (2) *Extending use.* Any nonconforming use may be extended throughout any parts of the building which were manifestly arranged or designed for such use at the time of adoption or amendment of this chapter, but no such use shall be extended to occupy any land outside such buildings.
  - (3) *Change of use.* If no structural alterations are made, any nonconforming use of a structure, or structure and premises, may as a conditional use be changed to another nonconforming use provide that the Planning Commission either by general rule or by making finding in the specific case, shall find that the proposed use is equally appropriate or more appropriate to the district than the existing nonconforming use. In permitting such change the Planning Commission may require appropriate conditions and safeguards in accord with the provision of this chapter.
  - (4) *Superseded by permitted use.* Any structure, or structure and land in combination, in or on which a nonconforming use is superseded by a permitted use, shall thereafter conform to the regulations for the district, and the nonconforming use may not thereafter be resumed.
  - (5) *Abandonment of use.* When a nonconforming use of a structure, or structure and premises in combination, is discontinued or abandoned for six consecutive months, or for 18 months during any three year period (except where

government action impedes access to the premises), the structure, or structure and premises in combination, shall not thereafter be used except in conformity with the regulations of the district in which it is located.

(6) *Destruction.* Where nonconforming use status applies to a structure and premises in combination, removal or destruction of the structure shall eliminate the nonconforming status of the land. Destruction for the purpose of this division is defined as damage to an extent of more than 50% (or other figure) of the replacement cost of time of destruction.

(7) *Outdoor advertising signs.* All outdoor advertising signs (billboards) not conforming with the provisions of this chapter shall be removed within the period prescribed by §174.06.

(F) *Repairs and maintenance.*

(1) On any nonconforming structure or portion of a structure containing a nonconforming use, work may be done in any period of 12 consecutive months on ordinary repairs, or on repair or replacement of nonbearing walls, fixtures, wiring, or plumbing, to an extent not exceeding 10% of the current replacement cost of the nonconforming structure, or nonconforming portion of the structure as the case may be, provided that the cubic content existing when it became nonconforming shall not be increased.

(2) If a nonconforming structure or portion of a structure containing a nonconforming use becomes physically unsafe, or unlawful due to lack of repairs and maintenance, and is declared by any duly authorized official to be unsafe, or unlawful by reason of physical condition, it shall not thereafter be restored, repaired, or rebuilt, except in conformity with the regulations of the district in which it is located, or as required by other ordinances.

(G) *Conditional use provisions not nonconforming uses.* Any use which is permitted as a conditional use in a district under the terms of this chapter (other than a change through Planning Commission action from a nonconforming use to another use not generally permitted in the district) shall not be deemed a nonconforming use in such district, but shall be without further action considered a conforming use.

(H) *Owner-occupied nonconforming residences.* Notwithstanding any other provision in this subchapter, any owner-occupied nonconforming

residence may be enlarged, extended, constructed, reconstructed, or structurally altered to permit expansion up to 25% of the square footage of the structure as it existed on the date it became nonconforming, and customary accessory structures may be located on property where an owner-occupied nonconforming residence is located subject to the following conditions: A owner-occupied nonconforming residence so expanded or any accessory structure so located may be enlarged, extended, constructed, reconstructed, structurally altered, or located in conformity with the bulk and area regulations, setback requirements, and building area requirements in the RSF-4.

(I) *Designated Preservation Structures.* Significant structures as designated by City Council resolution as worthy of preservation shall be exempted from the provisions of this section.
